More than
20
Nationalities

1
Month of coaching
and on-the-job training

4 600
Square meters campus

12
Months of work on
international
operational projects

Roadmap of our Program:

1 - Training - One month in Geneva (Switzerland)

You will have an exclusive overview of AKKA sectors and projects through testimonies and workshops.

Business Managers will coach you on Soft Skills coaching with interactive workshops and role play.

You will develop a complete innovation project with support from business managers and top management, to compete in the monthly pitch competition.

2 - Consultant Assignment - 12 months

The opportunity to work in France, Belgium or Germany, on a real assignment. You will apply your expertise and your consulting skills in a challenging role with AKKA Technologies.

You will receive continuous mentoring from Business Managers and teaching through technical modules and language courses online.

3 - Graduation

For the end of the program, all AKKAdemy Graduates will return to Geneva to share their experience and to maintain their international network.

As an AKKAdemy Graduate, you are on track for an exciting international career at the heart of the industry of the future!

"Joining AKKA Technologies and The AKKAdemy was an excellent opportunity for me, both professionally as well as individually, as their innovative projects are exciting and challenging to work on"

*Evgenia,
