

Q-PLAN INTERNATIONAL is a private innovation and management consulting firm based in Thessaloniki, Greece. We are currently looking for **2 young project consultants** to join our International Projects and Studies department, which specialises in the design, management and elaboration of international research and innovation projects and studies.

Job description

The project consultant will be involved in the following tasks:

- Daily monitoring, implementation and management of EU research projects.
- Preparation of technical reports by collecting, analysing and summarizing information.
- Analysis and interrelation of research data to develop integrated business studies and projections.
- Design and implementation of primary and secondary market research studies to support business planning.
- Development of business models and plans to drive the commercial rollout of research results.
- Participation in the idea generation process and the design of new projects.

What we are looking for

Candidates should possess:

- BSc in Business or in a STEM field (Science, Technology, Engineering, Maths).
- MSc in Business, Engineering, Informatics or other relevant field.
- Relevant work experience is a plus but not required.

We are interested in profiles with the following merits:

- Academic scholarship (e.g. first-class graduates; please indicate your grades in class percentile if possible).
- Reasoning skills (e.g. top percentile scores on aptitude tests like GMAT/GRE is a plus).
- Excellent communication and language skills (proficiency in oral and written English is a must, competence in expressing complex ideas in writing, knowledge of French or German is a plus).
- Strong time management and deadline focus.
- International experience and/or ambition (e.g. willingness to co-operate with multi-national teams).
- Availability to travel abroad (on average 10% for short trips).
- Soft and social skills (e.g. in relation to networking, presentation skills, civic engagement).

What we offer

Competitive compensation matching the selected profile.

Career prospects reflecting successful progress and specific talent feats.

Opportunity to develop skills and experience in a variety of topics and scientific fields.

How to apply

Interested applicants should send their CVs to the following electronic address: trendafili@qplan.gr

Please indicate in your email subject: **'Project Consultant'**.

If you have taken the GMAT/GRE tests, please **indicate this within your email** and make sure that your CV includes all the scoring information.

You don't need to send a cover letter.
